VISITING PHOENIX—Mrs. Helen M. Daykin and her daughter, Miss Anne, arrived yesterday from Wadsworth, Ohio, to visit the family of their son and brother, H. W. Daykin of Miller Sterling company.

FOR SINGLE TAX—F. H. Monroe, president of the Henry George Lecture association of Chicago is in the city on his annual trip through the southwest. Mr. Monroe, who is an active worker and organizer for the single tax movement, has arranged for a lecture by John Z. White in this city next winter.

MORE LOOP PETITIONS—Additional petitions in favor of an extension of the Monroe loop to Fourth street, and the construction of a double track line on that thoroughfare from Roosevelt to Washington, were filed yesterday with the corporation commission. The petitions filed yesterday bore the names of 102 property owners of the city or vicinity. The matter of the proposed extension will come up for hearing by the commission April 6.

6 Fancy Dill Pickles—10c. Frank Griebel's, 218 W. Washington.

TO SOUND OPINION ON TRAIN TO EXPO

Transportation Committee to Put It Up to People Whether or no They Want Excursion

Whether Phoenix wants to join in handling a Salt river valley excursion to the two expositions will be left to the people themselves. This was the decision of the transportation committee of the chamber of commerce at a meeting with representatives of the railroads yesterday afternoon.

As it is not known how many or who are going to the expositions this year, it will be necessary for the various organizations to take up with their members a canvass of their opinions on the subject. This must be done before any positive move is made to secure a train.

Beside the advantage of a rate, there is a further inducement to travel in the excursion trains. By going together Arizonians will get entertainment and publicity and treatment in the bulk that they would not get in small parties.

COUNTRY CLUB TEA—Mrs. Gordon Tweed and Miss Ruth Ainsworth will serve tea at the Country club this afternoon.

FOR DEACONESS HOSPITAL—The cooked food sale at the Bon Ton grocery today is for the benefit of the Deaconess hospital. The sale will begin at 10 o'clock.

HERE FROM TUCSON—Mrs. Frank E. Curley of Tucson will arrive this morning for a visit with her parents, Mr. and Mrs. E. J. Trippell of West Monroe street.

UNDELIVERED TELEGRAMS—There are undelivered telegrams at the Western Union Telegraph office for the following: Mart Miller, Sam Laskey and Miss Lillie Rose.

TO DECORATE FOR EASTER—All members of the parish are urged to gather at Trinity Pro-Cathedral this evening at 7:30 o'clock to assist in the decoration of the church for Easter. All who have greens or flowers are asked to send or bring them to the church in the afternoon.

EASTER GREETINGS BY WIRE—Encouraged by the response of the public to its special Christmas greetings service, the Western Union Telegraph company has designed an appropriate blank for Easter greetings, and messages filed today will be delivered on the special form, on Easter morning. Messages filed tomorrow will be forwarded immediately.

EL PASO STORE MOVES—The El Paso store has moved to 206-208 East Washington, where it will be in better quarters, and better prepared to take care of its customers. This store started in a small way but is now equipped with a large stock of general merchandise. A dry goods and suit department has been added under the management of G. S. Lopez, formerly with Goldwaters and the New York Store.

HOME FROM THE ISLANDS—Dr. Benjamin I. Burdette, who has just returned from a number of years residence in the Philippine Islands, was a Phoenix visitor yesterday and was among the guests of the Rotary Club excursion. Dr. Burdette, who is one of the most surgeons in the island, is on his way to Alabama to visit his mother. Later he expects to return to the southwest and may locate in Phoenix.

FOR ASSOCIATED CHARITIES—A sale of articles made and donated by the ladies of the Ingleside club will be held this afternoon from 1:30 to 6 o'clock at the Parish House in the rear of Trinity Pro-Cathedral. It is hoped that from the proceeds a substantial sum may be realized to assist in relieving some of the distress in this city and the return will be turned over to the Associated Charities for distribution. The patronage of all is earnestly solicited.

ACRE CITY'S GROWTH—Acres City has increased its population by fourteen inhabitants according to its founder, M. H. Shelton. Geo. M. Cagle and Geo. Ullery, contractors from Colorado, both bought 4 acres each in Acres City and will build nice homes there. Mrs. Ella Stevenson, who lived here in 1910 and has since been traveling from place to place has returned and bought one acre in Acres City and will build soon. Altogether the 2 families have swelled Acres City by 14 people.

MRS. ICE DIES—Word was received yesterday by Clarence E. Ice, past chancellor commander of Phoenix lodge, No. 2, Knights of Pythias, of the death of his mother, Mrs. Martha Ice, at Fairmont, W. Va. The telegram announced that death was due to acute heart disease. Incidentally word was also received that Rebecca Ice, a sister of Clarence Ice, is seriously ill at the old home. Mr. Ice himself, has been in bed for several weeks as a result of an attack of pneumonia, and shortly after taking to his bed received word of the death of his father, Andrew Ice.

CHURCH WANTS TO SELL LOT—The First Baptist church of Glendale made application to Judge Stanford of the superior court yesterday, asking for permission to sell property belonging to the church organization known as lot 8, block 5, in the town of Glendale. The lot had formerly been occupied by the church, but the building burned down, and since then, they have built a new church on a different location. Having no use for the unoccupied property, permission to dispose of it is asked. The application is signed by T. R. Adams, president and Robt. Scudder, secretary.

NEW CORPORATION—The United Produce Growers' Association of Arizona, filed papers of incorporation with the county recorder yesterday. The capital stock of the company is placed at \$50,000, with 5000 shares preferred stock with a par value of \$5.00 and 5000 shares of common stock at \$5.00 par. The preferred stock will control the association, but no common stock will be sold unless a share of preferred stock is taken also. The highest amount of indebtedness to which the company shall be subject is two-thirds of the amount of the capital stock.

SUN-PROOF

CHALMERS NEW SIX IS PROVING POPULAR CAR

First Model Shipped to Any Dealer Bought Here by J. J. Sweeney. Was Feature at Auto Show

That racy looking new Chalmers, the one that is so new that even the Chalmers folks call it the "New Six" to distinguish it from the other new models they have brought out in 1915, has just been sold by the O'Neill Auto and Supply company to J. J. Sweeney of the National Bank of Arizona. Not only is this car the first of the type seen in Arizona, but it is also the first of its kind ever shipped to any dealer, the Chalmers people having made a special effort to get it here in time for the recent auto show where it attracted a great deal of attention.

The engine is a radical departure for the Chalmers, and is equipped with overhead valves and cam shaft, similar to many of the foreign racers, and its radiator design also reminds one of the imported model. This car is a five-passenger model and is extremely modern in all of its appointments. The local distributors have received deposits on several more of this type and a carload of them is now on the way to Phoenix.

6 Fancy Dill Pickles—10c. Frank Griebel's, 218 W. Washington.

MARCH WAS LAMBLIKE MONTH ALL THE MONTH

Very Average Sort of Weather Dislinguished Past Thirty Days—Unusual Per Cent of Clouds

March, that is supposed to be a blustery sort of month, passed without any outstanding weather conditions, according to the monthly report of the weather bureau, just off the press.

Wind, there was little, and as for rain, the average of the past twenty years exceeded the .33 inch of moisture that fell last month by nearly half.

March was a little cooler than the same months during the preceding years. The average temperature was 59 degrees, while the average mean temperature for the past two decades has been 60.5.

Twenty-one per cent of the month was cloudy, which is one of the unusual features of the weather served up during the period in question.

EMACIATED DOCKET FOR FEDERAL COURT

But twelve cases charging the sale of liquor to Indians are on the calendar for the April term of the federal court, which opens Monday. Last year's calendar had nearer eighty such cases. The depression in the liquor traffic to Indians is directly due, of course to prohibition, for in only one of the twelve cases is the sale alleged to have happened since January 1.

The docket this month is very light—the total number of criminal cases being only twenty. Only the presence of a lot of equity and an unusual number of bankruptcies cases on the calendar make the coming session near a man sized one.

A grand jury will be called Monday, and a trial jury later in the week. Judge Sawtelle is expected from Tucson either today or tomorrow.

NEW NOTARIES—Notarial commissions were issued yesterday at the office of the secretary of state to Z. G. Page of Phoenix and John B. Modest of Agua Caliente.

HERE FROM MISSISSIPPI—Mrs. A. Lotterhos of Crystal Springs, Miss., is visiting her son, P. A. Lotterhos, at his home in Orangewood. It is her intention to stay about two months before returning to the east.

STEVENSON LECTURE—There will be a lecture on physical phenomena at College hall tomorrow evening by Dr. Geo. W. Stevenson. The doors will open at eight o'clock. The hall is located directly back of the Adams street school.

6 Fancy Dill Pickles—10c. Frank Griebel's, 218 W. Washington.

EGRET PLUME FARMING

The slaughter of egrets to secure feathers for women's hats seems peculiarly brutal in view of the fact that they are the nuptial plumage of the birds, and because the egret is a shining example of the virtues of domesticity. The parents divide equally the labor of caring for the young, and the male shares with his mate the duty of incubating the eggs.

Upon the Indian egret farms the birds, according to Mr. Birch, adapt themselves willingly to the conditions of captivity and seem to like having the twigs for their nest building supplied by attendants. They mate four times a year. "Increasing stock" is about as simple as raising poultry. Minnows served alive in shallow platters of water make living easy for the egrets. As they become used to the sheltered life they become so gentle that they may be picked up and handled.

There is no greater economic error than that of treating everything which Nature provides as a resource to be exploited without an effort to maintain the supply. The egret hunters made the birds scarce and the price of plumes rose to high figures. The government of British India forbade killing the birds fifteen years earlier than the United States took the matter in hand. The natives then snared the birds and kept them in captivity by the hideously cruel device of sewing up their eyes. Driven from that expedient by the laws against cruelty they discovered that the birds could be propagated.

Egret farming in Florida should be as practical as in India. There is no reason why the plumes should not be again permitted access to American markets provided means can be found to prevent the slaughter of the wild birds under cover of the legitimate trade in the plumes of those bred upon farms. The law against the use and admission of "aigrettes" should not be repealed at any time without suitable precautions to prevent the "plume hunters" from beginning anew the traffic in the feathers of birds killed during the mating season.—Louisville Courier-Journal.

The Japanese Red Cross has nearly 2,000,000 members and an endowment of \$13,000,000. It is a marvel of efficiency. Mongolian ability has asserted itself at Honolulu, where in the schools the Japs stand first, Koreans second, Chinese third, and Americans sixth in scholarship.

6 Fancy Dill Pickles—10c. Frank Griebel's, 218 W. Washington.

Tonto Basin Promises

To Become Another

Coalinga Oil Field

The Miami Oil and Development company, having complied with all the requirements of the law, will immediately commence operations in the Tonto Basin Oil Fields.

The company is composed principally of the business men of Phoenix, and other cities of Arizona who have perceived from the first that a discovery of oil in the Roosevelt district means a much needed impetus to every line of business in the state; in fact millions of capital will at once be invested here and Arizona will pulsate with prosperity.

The Tonto Basin Oil Fields have been compared very favorably to the Coalinga fields of California; and but a short time will lapse now, in their opinion, when the history of California's great oil field will be repeated.

On the 20th of January, the Tonto Basin Oil company now operating near Roosevelt, reported a discovery of both oil and gas; this fact proves that the vicinity of their well there is a deposit of oil.

The Miami Oil and Development company has acquired what is looked upon as the cream of the oil bearing land at Roosevelt, and owing to the discovery of the company now operating there, this proposition carries with it much merit.

Oil in the Tonto Basin means new cities, new railroads, new industries and prosperity, especially for Phoenix.

The operations of the Miami Oil and Development company will be watched with much interest by all those interested in the welfare of the state.

The company is partially financed and but a small portion of the capital stock will be offered to the public at 12 1/2c per share.

A small investment in this company may make you independent.

All communications should be addressed to the Miami Oil and Development Company, 138 North First Avenue, Phoenix, Arizona gba.
